Power	<p>The internal power supply is an auto-ranging unit and supports input voltages between 100 and 240V AC. Use the supplied AC power cord to connect the AC power connector to an AC power outlet. The Cisco RPS connector offers connection for an optional Cisco RPS 2300 that uses AC input and supplies DC output to the switch.</p> <p>Only the Cisco RPS 2300 (model PWR-RPS2300) should be attached to the redundant-power-system receptacle.</p>
